

Project Manager

Location: Bridgend

Contract Type: Permanent

Hours: Full Time, 36 per week

Salary: £45,000 - £49,000 depending on experience

Benefits: Pension Salary Sacrifice Scheme, Life Assurance, Cycle to Work Scheme, Company Sick Pay, Corporate Eyecare vouchers

About the Role:

The Project Manager will be customer facing, an effective communicator and able to interact successfully and professionally with stakeholders at all levels across the business and externally.

The Project Manager is responsible for planning, organising, motivating, and controlling resources to ensure contractual delivery requirements are met to quality, cost, scope and time constraints and to our customers satisfaction.

Project Manager Primary Responsibilities:

You will primarily be responsible for the delivery of production biased contracts. However, you may be required to manage different types of contracts and in the context of this organisation, a contract may include but not be limited to supply of existing product, new product design and development, provision of consultancy services and/or through life support or decommissioning services.

As the Project Manager you must be able to operate autonomously and prioritise your workload appropriately, particularly planning, tracking and reporting.

Whilst the majority of the Project Manager's role will be focused on the delivery of contractual commitments, the role will also require your active participation in bid preparation to ensure what is being bid can be delivered.

As a project manager, you will understand and execute your role in implementing the value drivers of Value Pricing, Profitable New Business and Productivity. Underpinned by long-term relationships with customers and on time delivery of our highly engineered proprietary quality products.
